

Glassforce 145 Multi-Channel

Product Features

- A heavy duty system for Balustrades and Pool Fences available in Top Mounted, Side Fixed and Recessed models.
- Due to robust engineering and the ability to suit 12mm to 21.52mm glass, this system is ideal for use in Apartments and Commercial projects.
- Heavy duty aluminium construction 6063 T6 grade and anodised covers for extra durability.
- The 30mm tilt adjustment, back and forward reduces issues of uneven sites.
- Fast and easy installation with pre-drilled holes. Glass installation and adjustment can be executed from one side.
- Patented rotating pressure plate system.
- Kitset system includes covers and rubbers which means each project can be custom fitted.

Side Fixed
