

Glassforce 155 Surface Mount Balustrade Channel

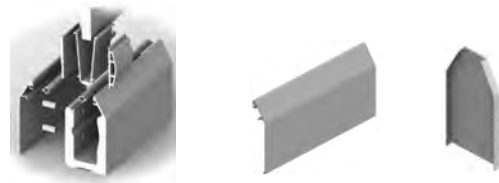

Product Features

- A unique slim design that is easy to install and easy to adjust.
- Installation can be achieved from the deck side which makes it ideal for situations where scaffolding may have been required in the past.
- Suitable for a range of glass thickness from 12mm to 17.5mm Toughened or Toughened/Laminated glass options.
- Ideal for internal or external Balustrading and Pool Fencing.
- Can be fixed to timber, concrete or steel with appropriate fixings.
- Pre-drilled channel for ease of installation, with no holes required in the glass for added safety and strength.
- Available in Mill or Silver Pearl finish. Custom powdercoat colours available.
