

# Glassforce 1700 Pool Gate Fittings

## Product Features

- A matching range of pool fittings to combine function and design for latches and pool gate fittings.
- All products have been tested in accordance with NZ Building Code.
- Spring hinges have a weight capacity up to 40kg and are tested to 20,000 cycles.
- Allegro Hydraulic Floor Mounted Closer has a weight capacity up to 80kg, simple installation with no floor cut-out required and easy adjustment of closing and latching speeds.
- All products are manufactured from 316 stainless for long life and serviceability.
- Latches have built in stops and come complete with magnetic catches. Fixing plates for either round or square posts are included and a Slip On glass-to-glass (no glass cut-out needed) option is available.
- Note, pool gates must always be hinged to be opened outwards, away from the pool.
