

# Glassforce 135 Adjustable Anchors

## Product Features

- Manufactured from 316 grade Stainless Steel for a long service life.
- Fully adjustable for ease of installation  
Fast Fix Anchors do not need to be packed out with washers to attain correct glass alignment.
- Additionally if required in the future through movement of timber they can be easily adjusted to re-align glass panels without removing the glass.
- The unique base allows for ease of installation when fixing to concrete, steel or timber, without fixings needing to be millimetre perfect.
- Available in Face Fix, or Concealed Fixed options to match customers design requirements.
