

Glassforce 165 Aluminium Post Balustrade System

Product Features

- This semi-frameless Balustrade system offers great flexibility with a range of designs and combinations to meet different fixing applications.
- A strong modern design is achieved from the square post system with surface mounted, face fixed or grouted options of installation available.
- Suitable for internal or external Balustrading, Stairs, Pool Fencing and Windbreaks.
- Custom Powder Coated colours are available to match your existing colour schemes or aluminium joinery.
- Options are available with or without handrails to maximise views or safety concerns.
- Suitable for 10mm or 12mm Toughened Safety Glass and pocket glazed for ease of installation and maintenance.

Glassforce 165 Aluminium Post Balustrade System

Balustrading

Surface Mounted or Face Fixed, Semi Frameless

- Retain the good looks of Frameless Glass Balustrading with the security of aluminium supports.
- Available ex-stock in standard posts with adjustment for falls or custom manufactured full height.
- Custom sizes can be fabricated in-house as required to meet specific design criteria.
- For specific fixing detail, post spacings and installation instructions, refer to our website.

Pool Fencing

Surface Mounted or Face Fixed, Semi Frameless

- Ideal for mounting to the front of decks or where weather tightness may be an issue, including floating decks.
- Available ex-stock in standard posts with adjustment for falls.
- Custom sizes can be fabricated in-house as required to meet specific design criteria.
- For specific fixing detail, post spacings and installation instructions, refer to our website.

Balustrading

Surface Mounted or Face Fixed, with Handrail

- All the features of surface mounted posts with the added security of an Oval Handrail section to provide safety and support.
- Available ex-stock in standard posts with adjustment for falls.
- Oval Handrail combines with the posts for a soft, modern handrail.
- Custom sizes can be fabricated in-house as required to meet specific design criteria.
- Handrails are recommended for decks over 5m from ground level.
- For specific fixing detail, post spacings and installation instructions, refer to our website.

Windbreaks and Privacy Screens

Surface Mounted or Face Fixed, Semi Frameless

- Provide privacy from neighbours through semi frameless posts and combinations of toughened safety glass.
- Various options are available for providing Windbreaks where protection is required from the elements, up to 1800mm high.
- Custom sizes can be manufactured in-house as required to meet specific design criteria.
- For specific fixing detail, post spacings and installation instructions, refer to our website.
